**SE Licensing Committee**  
**Meeting Minutes**  
**November 9, 2011**

Committee Members Present:

Rob Weilacher  
Eric Hagberg  
John Hutton  
Mike Fletcher  
Brian Dance  
Adrian Persaud

Committee Members Not Present:

Baku Patel  
Kurt Swenson  
Barry Barsh  
C. Jenkins

Committee Chair: Undecided as yet, Rob W. acting for now

Introductions and Committee Goal

Review of Our Proposed Law Change

- Re-write statute to be in line with NCEES model law
- Line of definition between geotechnical and structural requires further definition
- Soil nails, MSE walls, lagging walls, rammed aggregate piers likely geotechnical scope
- Specialty structures and secondary structural to require an SE, provided structural in nature

Strategy

- Target January 2013 legislative session for law
- Allies amended to include AIA, BOAG, CMAA, ASCE-G

Moving Forward

- Mike Fletcher has started a paper of support material to discuss with potential allies. He has distributed it and we need to determine what to change/add by the next meeting
- Meeting to be arranged with ASCE-G (confirmed December 9, U&C office) to discuss demarcation line between geotechnical and structural. John Hutton and Mike Fletcher to lead meeting
